Feet affect the
development of
the entire body.

That's why we
make shoes that
start children off
on the right foot.

Biomechanics

Feet are fantastic, fantastically important

We make shoes for children. That's all we do. From thermal analysis of feet, to measuring forces and movements during play; we are constantly exploring children's biomechanics through all stages of childhood.

Air-Rite technology

We know exactly where children's feet get hot and have innovated our designs to allow air to flow to the right area. These designs support the body's natural temperature regulation system whilst allowing the shoe to cope with a variety of terrains and weather conditions.

Natural support

Children's feet perform differently as they grow, and our lasts are made precisely for each stage of development. Our shoes are built to ensure their feet can move naturally through every adventure.

Natural flexibility

Our biomechanically engineered soles with bespoke flexibility are designed to move as the natural foot would at each stage as feet grow. A smart flexible toe area and footbeds mirror the flex grooves on the soles, offering spring and breathability.

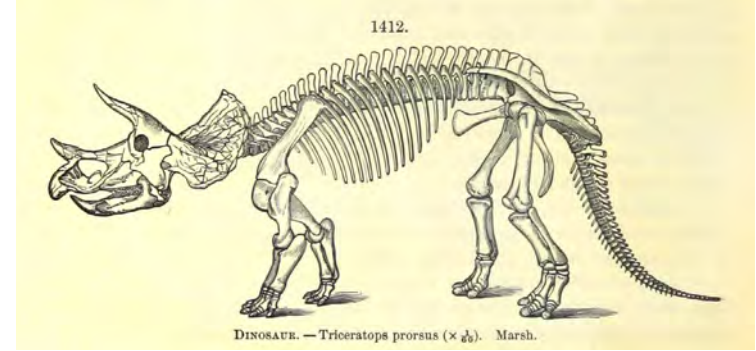

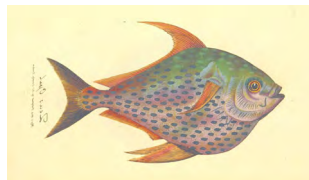

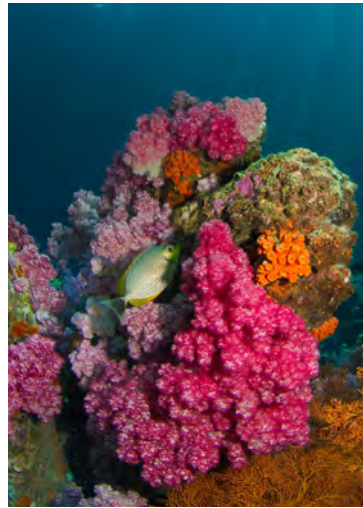

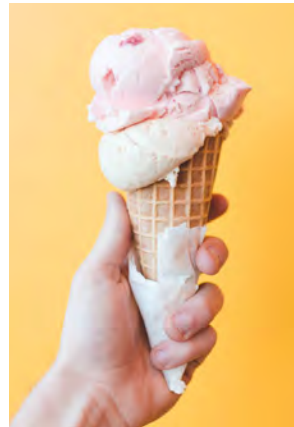

Inspiration

Taking inspiration from summer staycations and days out, our Spring / Summer 2022 collection offers exciting designs for heading outdoors and creating fun and happy memories together.

Our girls lifestyle draws inspiration from snorkelling and days out at the beach. Washed out palettes, trans-seasonal colours such as sage, meadowy florals and emergence of lilacs are just some of the highlights. You'll also find bold stand-out colours that are both inviting and energetic.

For boys lifestyle, the colour palette draws inspiration from island colours where tones are sun kissed for a sense of nostalgia. You'll find bright colours are offset with vibrant pops and fun prints, multifunctional styles feel casual yet relaxed. Warm, earthy tones also create a feeling of stability, growth, and a sense of calm throughout the collection.

Look out for our fun canvas collection, where sports inspired 'Kickabout' highlights the upcoming World Cup. There's also a special hand drawn watercolour illustration on our 'Collector' style, where the theme is about the wonders of curiosity combined with how naturally inquisitive children are. You'll find creatures that excite such as puffer fish and fossils, encouraging little feet to get outside and explore.

Girls

Pre-walkers

Comfort

Padded ankle support and cushioned insoles for instant comfort with breathable mesh linings.

Fit

Designed for square toes and chubby feet, with multi-width and half fittings.
